"The Moneyed men" of the ancient and always prosperous city of Hartford, have for half a century been famous throughout the Union for the care, discretion, rigid honesty, and unswerving sense, with which they have conducted their business and management of their affairs. The assured after a term of years, may at any time surrender the policy and receive its equitable value in cash.

The subject of Life Insurance is attracting much attention in the Eastern States, and commands itself to the favorable consideration of all, as by this means a comfortable, snug, port may be left to the wife and children when misfortune comes upon them, and the husband and father is taken from their embrace by the cold hand of death.

Pamphlets explanatory of the uses and benefits arising from Life Insurance, will be furnished those wishing to be insured.

Plank Road Meeting at Wolf Lake.—The citizens of the different townships in Noble County are requested to meet at the Methodist Church, in the town of Wolf Lake, on Saturday, the 29th day of December, 1849, to take into consideration the propriety of constructing a Plank Road, leading from said place to the city of Fort Wayne, Ind. Meeting at one o'clock.

Wolf Lake, Dec. 15, 1849.

The Lecture at the First Presbyterian Church next Friday evening will be delivered by President Nutt. Subject, "History of Philosophy."

Fort Wayne Female College.—The next term of the Fort Wayne Female College will commence on the 2d of January, 1850. It would be well for those who design to attend to be present at the beginning of the term. The institution is in a flourishing condition, and the number of pupils in attendance large.

The Legislature is in full blast, and as usual is doing a large amount of small business. For particulars we refer to the interesting letters of our Indianapolis correspondent.

We do not hear much from the Senate; but we expect to, as soon as friend Randall gets through with his honey-moon. At present it would be out of character to look for it.

We received a letter from our Representative, Mr. Bird, last Saturday, after our paper had got to press. As by this time its contents have become old, we refrain from publishing it.

Congress.—The House of Representatives still continues in a jangle, and there is as much uncertainty as ever when a Speaker will be elected. This bear-fight is becoming so stale that it has lost its interest, and we therefore do not see any use in filling our columns with it. It is rather expensive fun to the people, who will have to foot the bill; but as the members doubtless intend to make this a long session any how, and are perhaps doing less mischief than they will when they are organized, we do not feel disposed to complain. The free soilers hold the balance of power, and disposed so to use it as to secure to their party at least a chance of being heard.

Gov. Lane's Message.—On our first page will be found an interesting message from Gov. Lane to the Legislature of Oregon. It is an able and lucid document, highly creditable to the governor, and showing him to possess far more talents as a statesman and civilian than the world usually gives him credit for. He is admirably qualified for the office of Governor of Oregon; but as the powers that be have called him home, we shall have to try him in a more exalted station. He is our first choice and will be that of the Indiana democracy in 1852, to fill the station now occupied by Gen. Taylor.

The Break in the Canal.—The work on the break in the canal at the St. Mary's aqueduct is, we are happy to say, being pushed forward with great zeal and energy, and in such a manner as will render the structure much more substantial and permanent than it was before the accident. The work is already so far progressed as to place the aqueduct entirely out of the reach of danger from high water, or other contingencies. A large force of men and teams are engaged—as many indeed as can work to any advantage,—and there is every prospect, not only that the fears entertained by many that the entire aqueduct was in danger of being destroyed, will prove groundless, but also that the whole work will be completed in a much shorter time than any one thought possible.

Though it is to be regretted that Mr. Bird, the superintendent of this part of the line, is absent attending his legislative duties in Indianapolis, yet no injury has resulted in consequence. His place has been ably filled by Mr. Hosgland, to whose practical skill as an engineer, and energy and perseverance in pushing the work, the trustees of the canal will be indebted for its early and thorough repair. John Sheridan, too, "the State Boss," is entitled to no small share of credit. He is truly a king among carts, wheel-barrow, and shovels; and the way he keeps every thing moving, and every man at its post, is a mystery to the uninitiated.

The Old Drug Store.—At the corner of Columbia and Calhoun Streets, must be doing a smashing business, if we are to judge from the immense quantity of goods received there this fall, and the amount daily going away therefrom. Where all this physic, poison and nauseous stuff goes to is more than we can divine; but if people will have such things, H. B. Reed is just the man to sell on such terms as will not shake them absolutely pale, at least deprive them of much of their bitterness.

But as all is not gold that glitters, so neither is all physic that is to be found on friend Reed's shelves and show-cases. While providing for the old, the diseased, and the suffering, he has not forgot the wants of the young, the beautiful and the gay; accordingly we find in his stock every variety of perfume, essences, extracts, brushes, oils, fancy soaps, cosmetics, and thousand other beautiful nick-nacks, gincracks, and whimwhams, all of which, though we know neither their names nor uses, are doubtless quite essential to complete a lady's toilet. The fact that Mr. Reed is a bachelor (not an old one by any means) accounts for his having laid in such a stock for the ladies; and the same fact in addition to his uniform gentlemanly courtesy towards his customers will insure its ready sale.

The b'hoys will also find at Reed's some real strong Hennepin—segars are segars—which can be smoked without the aid of a sticking plaster on the back of the neck. We speak advisedly on this subject, and had some notion of giving them such a puff as they deserve; but on a sober account thought, concluded that all who are fond of the article would doubtless prefer puffing for themselves, and we make no question they will be well puffed without our aid.

Plank Road Movements.—The people of this region are getting wide awake to the value of plank roads. The stock necessary to extend the present plank road to Lagrange county has been nearly all taken. Several meetings have been held in relation to the proposed branch to Albion in Noble county. A meeting is advertised to be held at Wolf Lake next Saturday to adopt measures for planking the Fort Wayne & Goshen Road. And a petition to the legislature has been circulated here this week for a charter for a plank road from Fort Wayne, via Decatur to Willshire in Ohio, to connect with a similar road thence to St. Mary's. All these works are much needed, and we hope all will go ahead.

Yours truly, S. S. M.

PLANK ROAD MEETING,
Held at the Tamarack House, La Grange Co. on Thursday the 13th December, 1849.

On motion of Wm. D. Hill, DAVID B. HERRIMAN was called to the chair, and W. W. MARTIN, Secretary.

On motion of J. C. Alvord, Esq., a committee of seven was appointed by the chair to report the route preferred, the following gentlemen composed said committee: J. C. Alvord, W. D. Hill, C. Vaughn, A. Kinney, F. S. Alvord, A. McGuire and I. P. Grannis. The committee reported the following resolution:

Resolved. That J. P. Grannis, W. D. Hill, and F. S. Alvord be appointed a committee to confer with the directors of the Fort Wayne & Lima Road, to know if they will run said Plank Road from Wm. Mitchell's at Kendalville, to Adams Lake on the old route; and how much additional stock it will be required to be taken for aid route to Adams Lake.

On motion of J. P. Grannis that the proceedings of this meeting be published in the Fort Wayne papers.

DAVID B. HERRIMAN, Pres't.
W. W. MARTIN, Sec.

Indianapolis Correspondence.
INDIANAPOLIS, Dec. 12, 1849.

Mr. Editor: We are now in the second week of the session, and from the amount of bills, &c., introduced it would seem that our people are as anxious for local laws as ever; or at least members are pouring in an amount of business that is likely to occupy more time than it was reasonable to suppose would be devoted to such matters, in view of a new Constitution. The new constitution should be the business of the session. It is now pretty certain that the election of delegates to the convention will be held at the August election. The number of delegates is the great question. The most novel proposition is to put the number at one hundred—two from each Senatorial district. This is the proposal that the select committee have agreed to report. The House committee has not had a meeting yet. The abolition of slavery is to be the subject of the 21st.

ROMAN—Gen. Garibaldi has arrived at Gibralter on board a Sardinian ship of war. Two thousand francs were ordered to be given him by the government, but he positively refused to accept them.

TURKEY—Letters from Widdin, of the 4th inst., state that all the Hungarian and Polish refugees have been transported from that place to Shumla. The first portion left on the 30th composed of four hundred Poles, under ex-Gen. Ben, now Murad Pasha; the second portion left next day, commanded by General Stein, now Febaris Pasha. These divisions include those who had espoused the Magyar alliance, and 234 headed by Koschut. The English ally, author of the famous Count Leguizam, M. Dellef, arrived at Constantinople, and is regarded as a secret emissary of the government at St. Petersburg, whose mission is to sow discord between the English and French ambassadors, and to upset the cabinet of Reshid Pasha.

The Higgins family have been singing here to crowded houses; they are truly an interesting family, the girls particularly are considered; in the next place they are the most delightful singers I ever heard. There are two brothers and two sisters, all young and the latter very pretty. They sing four parts. Their voices are the most clear imaginable; one of the young men is the very best bass singer that is possible to imagine; one of the young ladies who sings treble is truly charming, her clear shrill voice when on one of its highest and wildest strains is almost startling, and then when it sinks into its low, sweet, and mellow tones it is truly captivating. But it is not worth while for me to attempt to describe their performance, as I expect the citizens of your place will not neglect to patronize them if you should ever visit Fort Wayne. S. S. M.

INDIANAPOLIS, Dec. 14.

At a meeting of the citizens of Wards county, held at the court house, in the town of Bluffton, on the 11th day of December, A. D. 1849.

On motion of J. P. Greer, Esq.

Sylvania Church, Esq., was called to the Chair, and Bowen Hale, Esq. was appointed Secretary.

J. P. Greer, Esq. briefly stated the object of the meeting; and on his motion, a committee of five persons was appointed by the Chair, to report Resolutions expressive of the views of this meeting, upon the subject of revising and amending the constitution of the state of Indiana, and of the alterations and amendments sought to be made in the same.

And therupon the Chair appointed the following named gentlemen as such committee, to wit: J. P. Greer, S. T. Clymer, J. Garrison, E. R. Bascom, and Daniel Burnet.

Mr. Clymer, from the committee, made the following report:

Mr. Chairman: The committee to whom we referred the subject of drafting resolutions expressive of the sense of this meeting on the amendments necessary to be made in our new constitution, have been subject under consideration, and have instructed me to report the following Prejudice and Resolutions:

Whereas, the people of this state did, at the last general election, decide that a Convention of the people of this state shall be held for the purpose of revising and amending the constitution thereof;

And whereas, it is proper that the people should early turn their attention to the amendment necessary and proper to have inserted in their new constitution, and to express their opinions thereon; therefore;

1. Resolved. That in our opinion the new constitution should make all responsibility as direct to the people as possible; that it should be true to the great principles of liberty, based on the cardinal doctrines of republicanism, and adopted to the present and future welfare of the people of this noble and growing common wealth.

2. Resolved. That the constitution should be so amended, that the General Assembly

should not meet but once in two years.

3. Resolved. That all State and County Officers, including Judges of the Supreme and Circuit Courts, should be elected by a direct vote of the people; and all unnecessary offices abolished.

4. Resolved. That we are opposed to granting power to the Legislature to create an annual State Debt: and that no debt should be contracted on the part of the state beyond a very limited amount, unless its object and the amount be first authorized by a direct vote of the people.

5. Resolved. That in our opinion, the time has now come, when the people should insist, that the Laws of our state should be reduced to a written and systematic Code, expressed in a plain, clear and intelligible manner, so that all our citizens may properly understand, safely apply, individually and honestly obey them.

6. Resolved. That a thorough reform should be made in our Judicial System, as well as in the practice, proceedings, and forms of our courts; so that redress for wrongs may be speedily and cheaply obtained.

7. Resolved. That the system of Local Legislation ought to be abolished; that the laws should be uniform throughout the state; and that the power of the County Boards

should be enlarged, and more precisely defined

so as to make them competent for all purposes of local legislation.

8. Resolved. That all Corporations based on capital alone, should be subject to the same amount of Tax for state and county purposes, and otherwise responsible for all their liabilities, as individual citizens of this state now are.

On motion of J. L. Worden, Esq.

Resolved. That we are opposed to the unnecessary increase of incorporation in our state; and that we are not disposed to endeavor to enlarge their number; but in our opinion the New Constitution should restrict the action of the legislature to general acts of incorporation, which shall not always subject to repeal by the same power that adopted them; and that we cannot consider the interests of the people of this state as secure until existing corporations are brought under the direct control of the voters of the state.

After which, the meeting was addressed by the Hon. James W. Borden, James R. Slack, Esq. J. L. Worden, Esq. S. T. Clymer, E. K. Bascom, and S. Church.

On motion of S. G. Upton, Esq.

Resolved. That the proceedings of this meeting be signed by the Chairman and Secretary, and published in the *Republican Bugle*, and *Fort Wayne Sentinel*, and *Times and Republican Herald and Age*; and the Indianapolis papers are requested to copy the same.

Attest, S. SYLVANUS CHURCH, Chb. BOWEN HALE, Secy.

Rejection of Executive Appointments.

As an evidence of public sentiment with

regard to the course which should be pursued in reference to the appointments of the Executive, we copy the following able article from the Nashville Union of Nov. 28:

WHAT OUGHT THE SENATE TO DO?—The public mind is becoming somewhat solicitous as to the probable course of the United States Senate in regard to the long list of removals and appointments which have been made by the present administration during the recess of Congress. We have seen the number of removals estimated at over twelve thousand; but whether this estimate is reliable or not we do not know. It is certain, however, that the number of removals has been very large, and that the Senate will be compelled to act on a large number of newly-made appointments. The majority of the Senate are democrats, and it is this fact which excites the curiosity of the public mind towards their action. What will the democratic senators do?—what ought they to do? It is General Taylor had been elected as an out-and-out whig, by clear whig votes, we should say unhesitatingly, that the democratic senators permit him to have the entire selection of his subordinate officers, and be fully responsible for the results of his administration. This would be nothing but fair and reasonable.

But Gen. Taylor happens not to stand in that situation. He was elected by democratic votes, and without democratic he could not have been elected. He obtained democratic votes by professing to repudiate party connexions and influences, by holding out the idea that he would be the President of the whole people, and not of a party; and making the impression through his own letters, and through his influential friends, that he loathed and abhorred the doctrine of the party which he had espoused.

actions speak louder than words, but intend that
all our goods can be had at this establishment that
beginning can be had at this establishment that
any one can have in the city. Those who want
genuine good articles at fair prices will find this
the place to purchase. Persons living in the
country, even if they do not want to buy, will find
\$5 will be more than enough for their teams,

country, and has been built only two years.
The Mill is a single story, 40x60, 10x12

Plank Road Meeting at Wolf Lake.—The citizens of the different towns in Noble County are requested to meet at the Methodist Church, in the town of Wolf Lake, on Saturday, the 29th day of December, 1849, to take into consideration the propriety of constructing a Plank Road, leading from said place to the city of Fort Wayne, Ind. Meeting at one o'clock.

Wolf Lake, Dec. 16, 1849.

The Lecture at the First Presbyterian Church next Friday evening will be delivered by President Nutt. Subject, "History of Philosophy."

Fort Wayne Female College.—The next term of the Fort Wayne Female College will commence on the 2d of January, 1850. It would be well for those who desire to attend to be present at the beginning of the term. The institution is in a flourishing condition, and the number of pupils is increasing.

The Legislature is in full blast, and as usual is doing a large amount of small business. For particulars we refer to the interesting letters of our Indianapolis correspondent.

We do not hear much from the Senate; but we expect to, as soon as friend Randall gets through with his honey-moon. At present we have but one of character to look for it.

We received a letter from our Representative, Mr. Bird, last Saturday, after our paper had got to press. As by this time its contents have become old, we refrain from publishing it.

Indianapolis Correspondence.

Plant Road Movements.—The people of this region are getting wise to the value of plank roads. The stock necessary to extend the present plank road into Lagrange county has been nearly all taken. Several meetings have been held in relation to the proposed branch to Albion in Noble county. A meeting is advertised to be held at Wolf Lake next Saturday to adopt measures for planking the Fort Wayne & Goshen Road. And a meeting in the legislature has been circulated here this week for a charter for a plank road from Fort Wayne, via Decatur to Willard, Ohio, to connect with a similar road thence to St. Mary's. All these works are much desired, and we hope all will go ahead.

PLANK ROAD MEETING.

Held at the Temperance House, La Grange Co., on Thursday the 13th December, 1849.

On motion of Wm. D. Hill, David H. Derriman was called to the chair, and W. W. Marsteller appointed Secretary.

On motion of J. C. Almond, Esq., a committee of seven was appointed by the chair to report the route preferred, the following gentlemen composed said committee: J. C. Almond, W. D. Hill, G. Vaughan, A. Kinney, F. S. Acalaine, A. McQuinn and L. P. Grannis. The committee reported the following resolution:

Resolved. That the J. C. Grannis, W. D. Hill, and F. S. Acalaine be appointed a committee to enter with the directors of the Fort Wayne & Goshen Road, to know if there will run said plank road from Wm. Mitchell's at Kendallville to Adams Lake on the old route; and how much additional stock will be required to be taken for old road to Adams Lake.

On motion of J. P. Grannis, that the proceedings of this meeting be published in the Fort Wayne papers.

INDIANAPOLIS, Dec. 12, 1849.

Mr. Editor:

We are now in the second week of the session, and from the amount of bills, &c., introduced it would seem that our people are as anxious for local laws as ever; or at least members are pouring in an amount of business that is likely to occupy more time than it was reasonable to suppose would be devoted to such matters in view of a new Constitution. The new constitution should be the business of the session.

It is now pretty certain that the election of delegates to the convention will be held at the August election. The number of delegates is the great question. The most novel

proposition is to put the number at one hundred—two from each Senatorial district. This is the proposition that the select committee have agreed to report. The House committee have not held a meeting yet. The abolition bill is now in the Senate, and is truly amazing to see the bolding, manumitting, &c., of the members. Some would like to see all of these measures laid on the fire, yet they have not even to lay them on the table.

The office of Agent of State I predict will be abolished at the report of the Auditor of State, showing the expenses of that office, is really enormous, and shows more extravagance than I ever heard of in a short report.

The Higgin family have been singing here to crowded houses; they are truly an interesting family. In the first place, they are the most delightful singers I ever heard. There are two brothers and two sisters, all young and the latter very pretty. They sing four parts. Their voices are the most clear and ringing, and one of the young men is the very best bass singer that it is possible to imagine. The only difficulty is to make them sing when on one of its longest, and wildest strains is almost startling, and then it sinks into its low, sweet, and mellow tones it is truly captivating. But it is not worth while for me to attempt to describe their performance, as I expect the citizens of your city will neglect no opportunity to hear them, should ever visit Fort Wayne.

INDIANAPOLIS, Dec. 14.

Mr. Editor:

Our legislative machine is now pretty fairly at work, and the way it grinds our laws is a caution to lawyers. This is now the second week, and a good part of the first week was spent in organizing, electing officers, &c., yet some one hundred and sixty bills have been introduced, and quite a number have been passed, though not many of them are of importance.

Yesterday, in Committee of the Whole, the entire day was spent in offering and voting on standing committees, recommending votes, voting on steam, &c., so as to have a bill to provide for the election of township Assessors.

Mr. Chapman, the committee, made the following report:

Mr. Chapman: The committee to whom was referred the subject of drafting resolutions expressive of the sense of this meeting on the amendments necessary to be made in our new constitution, have had that subject under consideration, and have instructed me to report the following Preamble and Resolutions:

Whereas, the people of this state did, at the last general election, decide that a Convention of the people of this state shall be held for the purpose of revising and amending the constitution of this state;

And whereas, it is proper that the people should early into their intention to amend their constitution, and to express their opinion thereon; therefore,

Resolved, That in our opinion the new constitution should make all responsibility absolute to the people as possible; that it should be the great principle of liberty, based on the sound doctrine of republicanism, and adopted to the present and future welfare of the people of this state, and growing common wealth.

Resolved, That the constitution should be so arranged, that the General Assembly should meet but once in two years.

Resolved, That all State and County Officers, including Judges of the Supreme and Circuit Courts, should be elected by a direct vote of the people; and all unnecessary offices abolished.

Resolved, That we are opposed to giving power to the Legislature to create no unlimited State Debt; and that no debt should be contracted on the part of the state beyond a very limited amount, unless its object and the sum to be first authorized by a direct vote of the people.

Resolved, That in our opinion, the time has now come, when the people should insist, that the Laws of our state should be reduced to a written and systematic Code, expressed in plain and intelligible language, so that our citizens may properly understand, and apply, individually and honestly, the same.

Resolved, That a thorough reform should be made in our Judicial System, as well as in its practice, proceedings, and forms of our courts; so that justice for wrongs may be speedily and cheaply obtained.

Resolved, That the system of Local Legislation ought to be abolished; that the laws should be uniform throughout the state; and that the power of the County Boards should be enlarged, and more precisely defined.

Resolved, That the State should confer a more pregnant interest as the time approaches for its solution.
